

KAIRUKI UNIVERSITY NEWSLETTER

MARCH – JULY 2025

STRATEGIC PARTNERSHIP STRENGTHENED: KAIRUKI UNIVERSITY SIGNS MEMORANDUM OF UNDERSTANDING WITH PAN AFRICAN TRAVEL MEDICINE FEDERATION

In a landmark move to advance travel medicine education and research across Africa, on 1st July 2025, Kairuki University officially signed a Memorandum of Understanding (MoU) with the Pan African Travel Medicine Federation (PATMF). This strategic partnership marks a significant step in the University's mission to become a regional leader in health education.

The formal signing ceremony follows the initial electronic execution of the MoU in February 2025 and establishes a collaborative framework focused on developing specialized academic programmes in travel medicine, enhancing infrastructure and digital learning platforms, and promoting scientific exchange and innovation.

Ahead of the signing, between 30th June and 1st July 2025, a delegation from PATMF conducted a comprehensive site visit at Kairuki University. The visit included assessment of physical

infrastructure for the planned Travel Medicine course, evaluation of Kairuki University's Moodle-based e-learning platform, curriculum development discussions for specialized programmes, and strategic planning for the Scientific Conference scheduled for October 2026.

These activities laid a strong foundation for academic and operational collaboration, ensuring that the partnership delivers meaningful outcomes for students, faculty, and the broader health sector.

This partnership is set to catalyse development of Africa-centric travel medicine programmes, foster scientific innovation, and position Kairuki University as a regional hub for travel health education. The upcoming Scientific Conference in October 2026 will serve as a key platform to showcase these collaborative efforts and engage global stakeholders.

Kairuki University continues to demonstrate its commitment to excellence, innovation, and international collaboration driving forward the future of travel medicine in Africa.

TRIPARTITE MoU BETWEEN KAIRUKI UNIVERSITY, UNIVERSITY OF RWANDA, AND KAIRUKI PHARMACEUTICAL INDUSTRY

In a bold step toward advancing regional academic and research excellence, Kairuki University (KU), in partnership with Kairuki Pharmaceutical Industry Limited (KPIL), has entered a strategic collaboration with the University of Rwanda. This landmark initiative aims to foster capacity building, drive innovation in health sciences and pharmaceuticals, and promote cross-border academic exchange.

The tripartite partnership is designed to facilitate joint research projects in health sciences and pharmaceutical innovation, support student and faculty exchange programmes for enhanced learning and collaboration, promote industrial training opportunities and shared access to academic resources, organize joint conferences, workshops, and collaborative publications.

On 25th June 2025, senior representatives from the three institutions convened at Kairuki University for a high-level consultative meeting. The session focused on aligning strategic goals, identifying priority areas for collaboration, and initiating the drafting of the formal Tripartite Memorandum of Understanding.

From the university, the participants were Prof. Yohana Mashalla, the Vice Chancellor, Prof. Edda Vuhahula, Deputy Vice Chancellors and Prof. Godwin Ndossi, Deputy Vice Chancellor, Planning, Finance and Administration, Professor Columba Mbekenga, Director of Postgraduate Studies, and Ms Siima Kairuki, Corporate Counsel. The delegates from University of Rwanda were Dr. Eugene Rutungwa and Mr. Patrick Mwesigye. Ms. Ellen Magita, KPIL Plant Manager represented KPIL.

The meeting underscored a shared commitment to advancing health education and pharmaceutical research across East Africa. The MoU describes the scope and responsibilities to guide the framework for the transformative partnership.

This initiative reflects Kairuki University's broader vision of becoming a regional hub for innovation, leadership, and academic excellence. By championing impactful collaborations, KU continues to shape the future of health and education in East Africa.

FAITH, FELLOWSHIP & COMMUNITY IMPACT: KAIRUKI UNIVERSITY SPONSORS “TWEENDEZETU KWA YESU” YOUTH GATHERING

In a powerful demonstration of faith and community engagement, on 21st June 2025, Kairuki University and Kairuki Hospital proudly sponsored the “Twen’zetu kwa Yesu” Youth Gathering, an uplifting event that brought together thousands of young people for a weekend of worship, inspiration, and spiritual renewal.

Held at the Tanganyika Packers grounds, the gathering drew over 15,000 youth from across Tanzania and beyond, united by a shared desire to celebrate their faith and connect with one another in a vibrant, God-centred atmosphere.

The event was graced by the presence of international decorated gospel singer Mercy Chinwo, whose powerful performance captivated the audience in an unforgettable session of praise and worship. With beloved songs like “Excess Love,” “Confidence,” and “Wonder” resounding through the venue, she ushered in an atmosphere of deep reverence and joy.

As part of sponsorship, Kairuki University and Kairuki Hospital distributed fliers and shared information on a range of services, including academic programmes from Kairuki University, health services from Kairuki Hospital and Kairuki Green IVF and Pharmaceutical innovations from Kairuki Pharmaceuticals Industry Limited (KPIL). Attendees had the opportunity to engage directly with representatives from both institutions, explore educational and healthcare offerings, and benefit from free health screenings and emergency medical services provided on site by Kairuki Hospital.

The sponsorship of “Twendezetu kwa Yesu” reflects the broader mission of Kairuki University and Kairuki Hospital to support holistic development spiritually, academically, socially, and through quality healthcare services.

This event stands as a testament to the power of collaboration between education, healthcare, and faith igniting hope and transformation in the hearts of the next generation.

EMPOWERING THE NEXT GENERATION OF WOMEN: KAIRUKI UNIVERSITY JOINS INTERNATIONAL WOMEN'S DAY CELEBRATION AT SHAABAN ROBERT SECONDARY SCHOOL

In a heartfelt celebration of International Women's Day, on 17th March 2025, Kairuki University was honoured to be invited to Shaaban Robert Secondary School to commemorate the achievements and potential of young women. The event brought together over 400 students, educators, and community leaders for a day filled with inspiration, recognition, and academic empowerment.

Representing Kairuki University, Dr. Bupe Mwandali delivered a powerful keynote address that deeply resonated with the students. Drawing from her recent academic journey having completed her PhD studies at Cincinnati University, USA, Dr. Mwandali encouraged young women to remain focused and resilient in the pursuit of their dreams. *"Make sure no one shatters*

your dreams. You can become whom you wish to be by focusing on your studies and goals in life," she urged. Her message emphasized the transformative power of education and the importance of ambition and perseverance.

In a gesture of academic support, Dr. Mwandali donated science textbooks to both O-Level and A-Level students, covering core subjects such as Mathematics, Biology, and Chemistry. These resources aim to strengthen students' academic foundations and inspire more girls to pursue careers in science and healthcare.

The event also included presentation of certificates to outstanding students and teachers, recognizing their dedication and contributions to the school community.

This moment of appreciation reinforced the importance of excellence and commitment in education.

Mr. S.D. Ramji, the Headmaster of Shaaban Robert Secondary School, expressed heartfelt gratitude to Kairuki University for its generous support and educational outreach. He noted that this marks the

beginning of a promising relationship, one that will continue to uplift and empower future generations.

Kairuki University's participation in this celebration reflects its ongoing commitment to nurturing young minds and promoting gender equity through education.

KAIRUKI UNIVERSITY HOSTS HIGH-LEVEL DELEGATION FROM THE INTERNATIONAL VACCINE INSTITUTE (IVI): A STEP TOWARDS GLOBAL HEALTH INNOVATION

Kairuki University (KU) welcomed a distinguished delegation of 15 members from the International Vaccine Institute (IVI), headquartered in Seoul, South Korea. Led by Dr. Jerome Kim, the Director General of IVI, the team was joined by representatives from the Tanzania National Institute of Medical Research (NIMR) and INUKA Africa.

The purpose of the visit was to explore KU's research capacity and discuss potential partnerships in IVI's mission to discover, develop, and deliver safe, effective, and affordable vaccines for global public health.

Prof. Yohana Mashalla, the Kairuki University Vice Chancellor, warmly welcomed the delegates and presented the Kairuki Health and Education Network (KHEN), a dynamic ecosystem of institutions working in harmony across healthcare delivery, education, research, innovation, and therapeutic production.

He spotlighted the development of KU's Boko Campus, which aims to expand enrolment and introduce new programmes in health and social sciences, alongside a cutting-edge research laboratory equipped with ultra-modern technologies.

Prof. Mashalla emphasized KU's growing experience in collaborating with both local and international institutions. He acknowledged the presence of **INUKA-Africa**, a recent local partner in research capacity building, and stressed that IVI's mission aligns seamlessly with KU's own vision. *"Our researchers are highly trained and internationally recognized,"*

he noted, "but underutilized due to limited resources. Through collaboration, capacity building, and technology transfer, we can unlock our full potential. He spoke.

Prof. Kim shared insights into IVI's research model, which is powered by grant funding from diverse global partners including academia, pharmaceutical companies, and research institutions. IVI's activities span epidemiological studies, pre-clinical and clinical research, health economics and policy advocacy, vaccine impact evaluation and modelling. He also introduced IVI's educational initiatives, including International Vaccinology Course, Dossier Analysis & Clinical Trial Training, Global Health Strategy Programmes for professional development

Following rich discussions and knowledge exchange, both institutions identified key areas for future collaboration, such as Joint research grant writing, training opportunities through IVI-affiliated institutions (short courses, Master's, PhDs), technology transfer in vaccine development and delivery, especially for vulnerable populations in Low- and Middle-Income Countries (LMICs)

This visit marks the beginning of a promising partnership between KU and IVI one rooted in shared values, mutual strengths, and a commitment to advancing global health. Together, we aim to build a healthier future through innovation, education, and collaboration.

The Director General of IVI, Dr. Jerome Kim (middle), gives a brief presentation on IVI mission.

THE FIRST-EVER BINTI KAIRUKI CONFERENCE: A MILESTONE IN WOMEN'S EMPOWERMENT

On 1st May 2025, Kairuki University made history by hosting the inaugural **Binti Kairuki Conference**, a student-led initiative that set a bold new standard for empowering female students in the healthcare sector. Spearheaded by Caroline Ayo, Vice President of the Kairuki University Students' Association (KUSA) 2024/2025, the event marked a transformative moment in KU's commitment to nurturing confident, skilled, and visionary women leaders.

The Binti Kairuki initiative was born from the growing recognition of the increasing number of female students at KU and their unique aspirations. Designed to offer mentorship, training, and tailored education, the conference embraced the theme: **"Empowering Binti in Health Care"**, explored through three powerful subthemes, Binti in Leadership, Binti in Finance, Binti's Career Path in the Health Sector.

Ms. Sophia Byanaku, Founder of Bloom Wellness Ltd, Co-Founder of Doctors Plaza Heart Clinic, and Executive Director of Forward Motion delivered a compelling message on mental wellness and women's empowerment, leaving a lasting impression on attendees.

The distinguished panel included, Dr. Zaituni Bokhary – Consultant Paediatric Surgeon & President of Medical Women Association of Tanzania (MEWATA), Ms. Anna Mwashu, Senior Manager, Investor Relations at CRDB Bank, and Dr. Sabra Hussein, Medical Doctor, Vice President of East Africa Students Union (Tanzania), Kairuki University Alumna (Class of 2022). Their insights bridged the gap between

aspiration and action, offering real-world guidance to the next generation of women in healthcare.

A highlight of the event was the **"SHE Hero Awards"**, which celebrated 18 outstanding female students across various academic years. These awards are recognized as excellence in: Leadership, Academics, Innovation, Business and Social Impact. The awards ceremony was a powerful affirmation of the brilliance and potential within KU's female student body.

With over 200 participants, the conference was a vibrant blend of education, inspiration, and collaboration. A special appreciation was extended to Mama Kokushubira Kairuki, Kairuki Health and Education Network (KHEN) Chairperson, whose presence and unwavering support elevated the spirit of the event. Her encouragement continues to fuel the Binti Kairuki movement.

"The success of the first Binti Kairuki Conference is just the beginning. With momentum on our side, we look forward to building even more impactful platforms that uplift and empower the next generation of women in healthcare". Said Ms. Caroline Ayo, Vice President of the Kairuki University Students' Association (KUSA) 2024/2025.

This conference showcased the unwavering commitment of Kairuki University's female students, who are eager to be more than what they are taught in class striving to lead, innovate, and shape the future of healthcare beyond the lecture halls.

KAIRUKI UNIVERSITY'S GRANT WRITING WORKSHOP SPARKS A NEW ERA OF INNOVATION

In a bold stride toward academic excellence and research empowerment, Kairuki University recently hosted a transformative two-day Basic Professional Grant Writing Workshop that brought together 39 passionate academic, administrative, and technical staff. Held from 15th–16th May 2025, the workshop was a dynamic initiative led by the Directorate of Postgraduate Studies and Research Institute, under the coordination of Prof. Columba Mbekenga, Director for Postgraduate studies and Research Institute and Dr. Adellah Sariah, Head of the Department Mental Health and Psychiatric Nursing from the School of Nursing.

The grant writing workshop was more than just paperwork, it served as the gateway to groundbreaking research, community impact, and global collaboration. Recognizing this, the workshop introduce the logic behind funding decisions, taught participants on how to shape project ideas into compelling concept notes,

build confidence in articulating healthcare projects with clarity and purpose.

The workshop was facilitated by experienced and visionary leaders in the field of grant writing including Prof. Yohana Mashalla, Vice Chancellor of Kairuki University, Prof. Andrew Kitua, Department of Community Medicine, Prof. Innocent Semali, Department of Community Medicine, Prof. Richard Mwaiswelo, Department of Microbiology and Parasitology and Prof. Mainen Moshi, Department of Pharmacology. The sessions were rich with insights, practical strategies, and real-world examples of successful grant acquisition. The diversity of participants reflected Kairuki University's commitment to inclusive capacity building, 84.6% were academic staff, MMed residents and medical doctors from Kairuki Hospital, 12.8% were from administrative departments and 2.6% represented technical staff. Notably, 51.3% of participants were

Prof. Godwin Ndossi, Deputy Vice Chancellor for Planning, Finance and Administration (Middle), presenting certificates of completion to participants upon successful completion of the programme.

Participants pose for a group photo with Prof. Columba Mbekenga, Director of Research and Postgraduate Studies (seated left); Prof. Godwin Ndossi, Deputy Vice Chancellor for Planning, Finance and Administration (seated center); and Prof. Edda Vuhahula, Deputy Vice Chancellor for Academic Affairs (seated right), during the completion ceremony

women, underscoring the university's dedication to gender equity in professional development.

From crafting compelling problem statements to mastering the logical flow of proposals, participants were imparted with practical tools and renewed confidence on community engagement strategies before and during research, planning for project activities and designing measurable indicators and preparation of research budgets and justifications. The post-workshop evaluation showed that out of 23 respondents, 30.4% felt *very confident* in their grant writing skills, 43.5% felt *confident*, 21.7% were *moderately confident*, and only 4.3% still felt unsure of the workshop's impact. A resounding 69% of participants applauded the facilitators' expertise, clarity, and engaging participants during delivery of learning content. Their ability to simplify complex concepts and foster interactive learning was a standout feature.

While feedback was overwhelmingly positive, participants voiced a desire for longer sessions with more hands-on practice, modules on citations, PhD proposal writing, and funding source selection, enhanced use of visual aids, videos, and structured group presentations. The call for continuity was immense and 70% of the participants recommended quarterly workshops, 30% preferred biannual sessions. Participants also advocated for refresher courses and mentorship programmes to sustain momentum and deepen skills.

This workshop wasn't just a training course, it was a statement, building a research culture of excellence. Kairuki University is investing in its people, nurturing a culture where research would thrive, and equipping its community with the knowledge and skill that will empower them to compete on the global stage. By institutionalizing regular grant writing workshops and offering ongoing support, the university is laying the foundation for a future rich in innovation, collaboration, and impact.

KAIRUKI UNIVERSITY'S QUALITATIVE RESEARCH WORKSHOP EMPOWERS ACADEMIC EXCELLENCE

In a powerful move to strengthen research capacity and elevate academic inquiry, Kairuki University (KU), through its Directorate of Postgraduate Studies and Research Institute (DPGSRI), hosted an intensive four-day Qualitative Research Methods Short Course on 9th–10th and 17th–18th July 2025. This training brought together 17 dedicated academic staff members from across KU's Schools of Medicine, Nursing, and Social Work. The course was expertly facilitated by Prof. Columba Mbekenga (Director of DPGSRI), Dr. Adellah Sariah (School of Nursing) and Dr. Paul Shidende both highly experienced scholars with deep expertise in qualitative methodologies. The objective of the workshop was to equip participants with the skills to design, conduct, and communicate qualitative research with rigor and clarity.

From philosophical foundations to practical

techniques, the workshop covered, crafting research questions, collecting and analysing qualitative data, extracting codes, themes, and categories, presenting findings with precision and insight. Participants praised the facilitators' engaging teaching style, rich examples, and hands-on exercises that made complex concepts accessible and actionable.

The cohort included 58.8% female and 41.2% male participants. The participants were academic staff, with representation from, School of Medicine – 47.1%, School of Nursing – 29.4%, School of Social Work – 23.5%. The post-workshop evaluations showed a significant boost in confidence with 42.9% of the participants felt confident in their qualitative research abilities, another 42.9% reported increased confidence, 14.2% felt strongly confident. This surge in self-confidence signals a growing culture of research excellence at KU.

Vice Chancellor Prof. Yohana Mashalla (standing) addresses course participants during the official opening of the programme.

Participants lauded the facilitators' preparedness, interactive methods, and practical application. However, they also voiced thoughtful suggestions, extend training days for deeper engagement, add modules on constructing research titles and objectives, and emphasize data analysis using software tools. When asked about future workshops, 50% advocated quarterly sessions, 43% preferred biannual

delivery, 7% suggested annual offerings. This training workshop was a catalyst for building a research driven future by investing in qualitative research capacity. Kairuki University is nurturing a generation of scholars equipped to explore complex human experiences, inform policy, and drive social change. The ripple effects of this initiative will be felt in classrooms, communities, and across the healthcare and social sectors.

KAIRUKI UNIVERSITY EXPLORES NEW FRONTIERS IN REPRODUCTIVE HEALTH EDUCATION: A STRATEGIC VISIT FROM COOPERSURGICAL USA

On 17th March 2025, Kairuki Green IVF had the distinct honour of hosting a high-level visit from Cooper Surgical USA, a world-renowned leader in reproductive health technologies. This strategic engagement marked a significant step forward in strengthening healthcare services and academic training in Tanzania.

The visit brought together key stakeholders from Kairuki Hospital and Kairuki University, including Prof. Yohana Mashalla, the Vice Chancellor, Prof. Columba Mbekenga, the Director of Postgraduate Studies and Research Institute (DPGSRI), Ms. Monica Chiduo, the Head of Obstetrics and Gynaecology, (OBGY) School of Medicine, and Prof. Naboth Mbembati, the Dean, School of Medicine. From Kairuki Hospital this meeting was attended by Director General, Dr. Asser Mchomvu, Dr. Clementina Kairuki, the Director General, KH Green IVF and the IVF management team.

The presence of Kairuki University delegates underscored KU's commitment to integrating cutting-edge medical technologies with academic excellence, particularly in the field of In Vitro Fertilization (IVF) and reproductive health.

Beyond showcasing advanced IVF equipment, Cooper Surgical emphasized its dedication to professional education and experiential learning. Their professional education team is composed of experts focused on equipping medical professionals with the skills to safely and effectively use reproductive technologies to enhance patient care.

For Kairuki University, this collaboration opens exciting new doors hands-on training for OBGY faculty and MMed students, joint academic programmes and workshops in reproductive health and access to global best practices

A group photo of delegates from Kairuki University, Kairuki Hospital, Kairuki Hospital Green IVF and Cooper Surgical USA who attended the meeting

and mentorship in IVF technologies. Now, with Cooper Surgical support, KU is poised to expand its reach into specialized medical training, offering students and faculty exposure to real world clinical tools and techniques that directly impact patient outcomes. By pooling resources, expertise, and a shared passion for healthcare, Kairuki University, Kairuki Hospital, and KH Green IVF are working towards building capacity for innovation and quality care in IVF. This collaboration is specifically about fostering a culture of excellence, leadership, and

national and international visibility. Discussions are underway to develop an IVF-focused embryology training modules for postgraduate students, organize specialized workshops for faculty in reproductive health, develop joint research initiatives in fertility and maternal care.

Kairuki University remains committed to preparing the next generation of healthcare professionals through strategic partnerships, practical training, and a relentless pursuit of academic and clinical excellence.

Prof. Yohana Mashalah, Vice Chancellor, Kairuki University (second left) speaking during the meeting at Kairuki Hospital GIVF, Bunju.

KAIRUKI UNIVERSITY AT HIGHER EDUCATION EXHIBITION WEEK 2025

Kairuki University (KU) proudly took part in the Higher Education Exhibition Week organized by the Ministry of Education and Vocational Training Zanzibar (MoEVT) from 14th–27th July 2025, held in Unguja (14th–20th July) and Pemba (23rd–27th July). Guided by the theme *“Higher education is a pillar of transformation. Let us nurture it, use it, and preserve it,”* the exhibition brought together more than 80 exhibitors in Unguja and over 75 in Pemba, including universities, research organizations, professional bodies, colleges, and international student recruitment agencies.

A key highlight of the week was the official opening of the undergraduate admission window for the 2025/2026 academic year by the Tanzania Commission for Universities (TCU) on 17th July 2025. This milestone created a strategic opportunity for KU to connect with prospective students and promote its diverse programmes.

Throughout the exhibition, KU strengthened its visibility and brand presence by engaging directly with institutional representatives, decision makers, and students. The event provided a platform to showcase KU’s academic offerings and foster partnerships with participating institutions and facilitate onsite student registrations. KU interacted with more than 5,000 students across both regions, generating valuable leads that translated into actual enrolments.

The University was honored to receive visits from Hon. Lela Muhammad Mussa, Minister of Education and Vocational Training Zanzibar, and Mr.

Khamis A. Said, Permanent Secretary, MoEVT Zanzibar, underscoring the significance of KU’s participation. By the close of the exhibition, KU had successfully registered 142 students into programmes such as Doctor of Medicine, Bachelor and Diploma in Nursing, and Bachelor and Diploma in Social Work.

Beyond enrolment gains, the Higher Education Week offered KU important insights into students’ academic needs. Feedback gathered during the event is being used to strengthen curricula and introduce new programmes, ensuring that KU continues to respond to the evolving demands of higher education.

The Higher Education Exhibition Week 2025 was a resounding success for Kairuki University, reinforcing its role as a leader in higher education and opening new pathways for collaboration, student recruitment, and programme expansion.
